

Sponsorships for Loving Garland Green And our Urban Garden Programs

Our mission is to lift up our local economy by increasing the number of urban gardens in Garland. Not only will these gardens increase the food security and improve health in our community, they will also create new market demands while supporting and growing existing markets.

Loving Garland Green is a recently (January 2014) formed Texas nonprofit organization and we are licensed by the city of Garland to use a portion of the property located at 4022 Naaman School Road for the purpose of establishing a community garden. For more detail regarding our operations, and programs, please visit our website at www.lovinggarlandgreen.org.
